MUZZL
10 SERIES

PELLET MILL

High-efficient pellet mill for poultry feed and aquafeed processing.
To raise feed profitability.

- High efficiency
- User-friendly
- Good pellet quality
- Customizable solution

SUPERIORITY

High efficiency

Optimized area-to-power ratio of ring die, maximum output; 2-motor belt-drive, stable and low noise, optimal energy efficiency.

User-friendly

Wide product range: ϕ 2.0mm~ ϕ 10mm pellets; automatic lubrication and belt tension; hygienic and CE standard design for feed, human and machine safety; computerized control.

Good pellet quality

Efficient conditioner, excellent pellet formability and durability; patented adjustable cutter, uniform pellet.

Customizable solution

Including machine size, die, roller, conditioner, steam system, auto lubrication system, die & roller lifting device, etc.

Model	Ring die		Roller number	Main motor power (kW)	Feeder motor power (kW)	Capacity (t/h)
	Inner Dia. (mm)	Pelletizing width (mm)				
MUZL 610	ϕ 520	180	2	75×2	1.5	12~16
MUZL 1210 C	ϕ 630	200	2	90×2/110×2	2.2	16~25
MUZL 1610 C	ϕ 800	220	2	132×2/160×2	2.2	20~30
MUZL 2010 C	ϕ 935	270	2	180×2/200×2	3	30~40
